ABOUT ME

Thirteen years designing womenswear at Handsome, LF, SK Networks, and F&F — collections run end to end, from concept and collection planning through fabric and trim selection, fittings with pattern and sample makers, and production handoff.

Detail, textile, and production

At atté Vanessa Bruno I worked deep in the feminine detail vocabulary — embroidery, print, lace, and scalloped finishes — researching embroidery motifs and surface textures, not only the product design. At Tommy Hilfiger Women I owned the chain from textile ordering through production management, and led the Asia-fit pants development with PVH APAC and the Dutch HQ. Sole owner of the DUVETICA indoor collection; as a freelancer I carried two F&F Sergio Tacchini capsules single-handedly — item map, technical flats, fabric and trim, campaign visuals.

How I work

I carry a line from concept to finished garment without dropping it between hands — that is how I have worked for thirteen years. I also bring CLO 3D and generative AI: mood boards, design presentations and editorial visuals produced in-house, and fit verified in 3D before a sample is cut.

EXPERIENCE

- **Freelance** Independent Designer **Sep 2024 – Present**
Concept, technical flats and material direction for individual clients, alongside branding and visual content production. Sole owner of two F&F Sergio Tacchini capsule collections — item map → technical flats → campaign visuals — completed single-handedly. Led key-item reviews for F&F DUVETICA 2025 S/S.
- **F&F / DUVETICA** Head Designer **Nov 2023 – Apr 2024**
Sole owner of the indoor collection: concept, collection planning, fabric and trim selection, fittings, and production handoff. Ran the 2025 S/S China sales conference.
- **Handsome / Tommy Hilfiger Women, License Design Team** Freelance Design Lead **Nov 2022 – May 2023**
Owned the full chain from textile ordering through production management. Led a production-process reform that moved the seasonal calendar 3+ months earlier to qualify styles for overseas manufacturing; expanded the factory base from domestic to overseas with stronger cost control. Owned the Asia-fit pants development — pattern revisions and fit changes exchanged with PVH APAC in 3D; led fit reviews with the Dutch HQ and unified HQ and trim-supplier communication.

MOS

Excel · PowerPoint · Word

- **LF / atté Vanessa Bruno** Senior Designer **Aug 2018 – Jun 2022**
All categories from tees and denim to luxury heavy outerwear; denim lead. Extensive feminine detail work — embroidery, print, lace, and scalloped finishes — including research into embroidery motifs and surface texture, beyond product design alone. Fabric and trim sourcing, graphic and artwork development, fittings with pattern and sample makers, and English design reports.
- **NOBLAND (global garment vendor)** R&D Designer **Nov 2017 – Jun 2018**
Vendor-side R&D — design innovation and co-creation for BANANA REPUBLIC; supported New York brands including Alexander Wang, Vince, Rag & Bone, and Theory. Worked directly with factory pattern and sample rooms on construction, materials, and cost.
- **Handsome Global / Club Monaco Women** Designer **Feb 2017 – Apr 2017**
Expanded local re-orders of imported items; grew domestic design share to 30%.
- **SK Networks / CONTEM Div. 1 · Club Monaco Women** Designer **Jan 2014 – Jan 2017**
License-brand R&D, design, and production. Connected planning–production–delivery with direct vendor handling — 5.5x inventory turns (2016 F/W). Seasonal sales analysis driving new item planning.
- **SK Networks / Design Strategy Team R&D** Designer **Nov 2012 – Dec 2013**
Focused analysis of CK, DKNY, Elie Tahari, and Club Monaco; import-brand strategy and weekly store-level sales analysis.
- **Handsome / SYSTEM** Designer **Dec 2011 – Oct 2012**
Junior designer, women's woven.
